***The Power of Connection* Documentary
Receives International Acclaim For Delivering Research-Based Solutions To
Pressing Social Justice Issues**

Indianapolis, IN, 03/01/2021 – To date, Isabel Hundt and her team have won five prestigious awards for their documentary *The Power of Connection – Change the World by Changing Your Perception*.

This first round of honors include the **Impact DOCS Awards**, the **IndieFest Film Awards**, the **Istanbul Film Awards**, the **Depth in Field International Film Festival** and **Accolade Global Film Competition** in the following categories: *Feature – Best Educational, Liberation & Social Justice, Documentary Feature, and Inspirational and Contemporary Issues*.

The Power of Connection, an Isabel Hundt Film, is a perception-changing experience for viewers. By diving into scientific-based self-exploration, this ground-breaking documentary investigates and answers questions the world has been grappling with for centuries and even more intensely in the last few years amid social injustice protests over police brutality and racial inequality in the face of a pandemic.

Hundt's film is an answer to those who are craving change, healing and unity and feel overwhelmed as to how to start their path toward impact in such a large, divided and fragmented world. With exceptional storytelling, visuals and creativity, *The Power of Connection* grips viewers on a personal level, guiding them through their own hearts and homes down the path of how they can directly and immediately begin impacting humanity as a whole by starting with themselves.

Hundt, a visionary who has spent decades researching the scientific principles referenced throughout the film, says she is elated to see how it has all come together in a medium that resonates with people of all walks of life: "We are incredibly grateful for the recognition of our work. I can speak for the whole team by saying that this is such a passion project created with the only goal to bring people together in conversations that

truly matter. I feel deeply honored and am grateful for the support this important message is receiving. We are truly blown away by the awards we've won so far. It feels quite surreal."

In winning the internationally respected IndieFest Film award, Hundt joins the ranks of other high-profile winners of this internationally respected award including Liam Neeson as the narrator of *Love Thy Nature, A Path Appears* Documentary featuring George Clooney and Blake Lively, *Radical Grace* executive produced by Susan Sarandon, a searing expose *Dauids and Goliath* by Peabody winner Leon Lee, and *Touched with Fire* starring Katie Holmes.

Rick Prickett, who chairs IndieFest Film Awards, had this to say about the pool of talent in this year's competition, "The judges and I were simply blown away by the variety and immensely important films we screened. IndieFest is not an easy award to win. Entries are received from around the world from powerhouse companies to remarkable new talent. IndieFest helps set the standard for craft and creativity as well as power catalysts for global change."

The five award events honoring Hundt's documentary are known for recognizing film, television, videography and new media professionals who demonstrate exceptional achievement in craft and creativity, and those who produce standout entertainment or contribute to profound social change. Film entries were received from around the world, including veteran award-winning filmmakers and fresh new talent. Entries were judged by highly qualified and award-winning professionals in the film and television industry.
